# Table of Contents

1. Introduction

2. Core

3. Conclusion

# Introduction

---

In our presentation, we mainly refer to the following three terms:

- **first:** Lorem ipsum dolor sit amet, consectetur adipiscing elit. Etiam lobortis facilisis sem
- **second:** Lorem ipsum dolor sit amet, consectetur adipiscing elit. Etiam lobortis facilisis sem
- **third:** Lorem ipsum dolor sit amet, consectetur adipiscing elit. Etiam lobortis facilisis sem

## Table 1

We can see that the number of bad students and the CO2 emissions are related.

Year	Good students	Bad students	Number of pirates	CO2 (PPM)
1980	1021	920	1000	340
2000	2144	314	850	360
2020	3920	42	60	400

Core

---

Figure 1

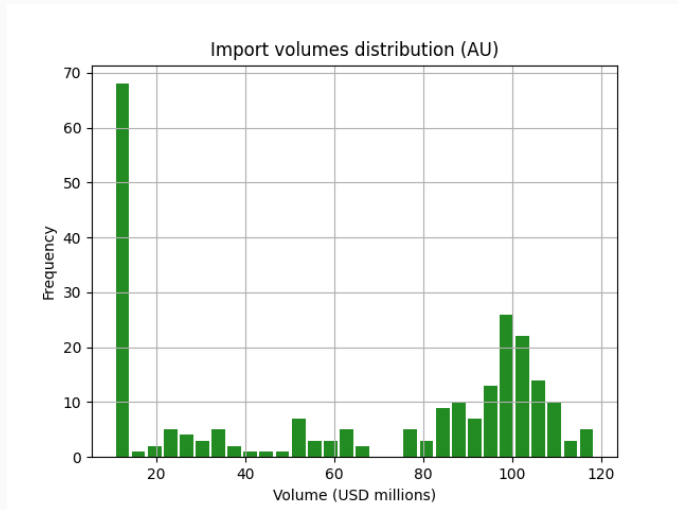

Figure 1: Import values distribution in AU

## Figure 1 explanation

We see that in 2 we have:

- High frequency pf import volumes at 20 million
- Higher density volumes around **80 and 120 millions of USD**

Figure 2

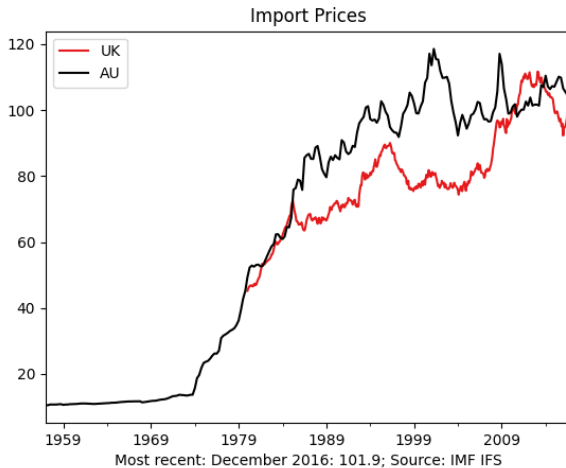

Figure 2: Import prices UK vs AU from 1959 to 2019

## Conclusion

---

# Final considerations

We are very happy to have learned something meaningful for our future in this course.
